SUMMARY

Senior Software Engineer and Tech Lead with 6+ years of experience building scalable, high-performance web applications. Expert in ReactJS, TypeScript, Redux, Next.js, Node.js, and modern frontend architectures. Proven track record in frontend performance optimization, integrating complex headless CMS architectures, building CI/CD pipelines, and leading cross-functional engineering teams to deliver enterprise-grade platforms. Strong collaborator with design teams using Figma to drive seamless UI/UX workflows.

SKILLS

Languages: TypeScript, JavaScript, HTML5, SCSS, PHP, ES6+

Frameworks & Libraries: ReactJS, Next.js, Redux, Node.js, Tailwind

Tools & Technologies: Vite, Cypress, Git, Figma, WebSockets, Socket.io, REST APIs

Architecture: Decoupled CMS, CI/CD, Micro-frontends, SPA

Remote Work: Virtual Collaboration via Zoom and Google Meet, Document management, Adaptability to time zones, Remote onboarding and training

EXPERIENCE

Senior Software Developer, Innoraft Solutions Pvt. Ltd., Kolkata, India (Remote)

Jan 2020 – Present

- Managed a cross-functional Agile team of 8+ engineers, mentoring developers and driving architectural decisions for enterprise systems.
- Acted as Technical Architect and Lead Designer, creating UI/UX workflows and high-fidelity prototypes in Figma to guide frontend architecture and user experience decisions.
- Delivered measurable product impact including 17% higher conversions and 25% increased user engagement.
- Improved frontend performance by reducing First Contentful Paint from 3.8s to 1.6s and increasing Lighthouse performance scores from 62 to 92.
- Consistently delivered 95% of tasks ahead of schedule without direct supervision, championing a remote-first approach by proactively keeping management updated on progress.
- Collaborated remotely with 5+ key stakeholders across 50+ virtual meetings to align on product requirements and ensure seamless project execution.
- Architected and developed a scalable multi-screen digital experience platform using ReactJS, TypeScript, Node.js, WebSockets, and Socket.io, enabling real-time synchronization across 10+ displays.
- Built a modular high-performance frontend architecture supporting dynamic layouts, animation pipelines, and media rendering.
- Designed and implemented responsive UI systems using ReactJS, Redux, TypeScript, SCSS, HTML5, and REST APIs.
- Implemented CI/CD pipelines using Git, Vite, Cypress, and automated E2E testing, reducing release cycles by 35%.
- Optimized application load times by 50% and improved overall system performance by 70%, enabling smooth browser animations at approximately 60 FPS.

PROJECTS

HCLTech Customer Experience Center

ReactJS, TypeScript, Node.js, WebSockets, Drupal CMS

- Served as Technical Architect and Lead Developer, designing and developing an enterprise multi-screen interactive platform enabling synchronized real-time experiences across large digital displays using ReactJS, TypeScript, Node.js, WebSockets, and Drupal CMS.

O2E Brands Digital Platforms

ReactJS, TypeScript, Figma, Decoupled CMS

- Led technical product development and served as lead designer, building modern SPA booking and service platforms using ReactJS, TypeScript, Figma, and decoupled CMS architecture for brands including WOWIDAY and Shack Shine.

EDUCATION

Rajasthan Technical University

B.Tech (Honours) Computer Science and Engineering

Aug 2016 – Aug 2020
